

From: Daly, Eric
Importance: Normal
Subject: NFB Metals Phone Conference
Start Date/Time: Mon 11/28/2016 8:00:00 PM
End Date/Time: Mon 11/28/2016 8:30:00 PM

Hi:

I need to push back due to St. Croix fire. Does 3 PM work?

Niagara Falls Boulevard Site phone conference:

1. Dial the toll-free Conference Number -1-844-637-3111
2. Enter your 5-digit Conference Extension - 83450
3. If you are a participant press (2) - Enter the 6-digit Access Code – 123456

Info to discuss below

Soil Metal Lab data/future analysis-OSC & Weston

- o US Ecology identified several samples from our data products (Soil Sampling collected in Dec 2015 and March 2016) that showed elevated results above regulatory levels.
- o OSC is requesting that Weston update metals tables for existing data and confirm regulatory levels.
- o Weston Site personnel work with OSC, Smita and lab to determine what other metals analysis we need to perform on soil samples collected (GNBC Office, Area 5, Area 1 Parking Lot, Area 7)
- o If needed, conduct sampling of existing excavated material (cubic yard boxes, in jars on-site, samples at lab) and send to lab for analysis (i.e. TCLP-Toxicity characteristic leaching procedure).
- o Once determined, future soil samples that are obtained for disposal purposes will need these non-rad analysis
